

CALISTHENICS PARKS

CALISTHENICS PARKS BY CUSTOMBARS®

CALISTHENICS PARKS BY CUSTOMBARS experienced – at eye level – managed by the mechanical engineer Marc Suerbier. Marc is an enthusiastic CALISTHENICS Fan and connects his passion with his knowledge as an engineer. Our installations are revised by the German TÜV, barrier-free, rust and maintenance free and naturally safe from theft. Made in Germany

CALISTHENICS PARKS FOR CITIES

Either on undeveloped areas in cities, in front of police academies or for jails, our calisthenics parks offer a surplus for your community. Health promotion, positive companionship and a meaningful activity for the citizens of the city. The county will be considerably revalued and all the open spaces can be used wisely.

CALISTHENICS PARKS FOR CITIES

SECURE AND CONTROLLED BY TÜV

All installations conform to DIN EN 1176 – special equipment and ground floor for sport accessories – special technical security requirements and examination procedures.

DIN EN 16630 - Location-bound outdoor sports equipment - special technical security requirements and examination procedures. Safe from theft and corrosion.

We start with a joint location design and supply you the related plan, design and a professional taking-over in an “allround no worry package”. The implementation of our concept around the calisthenic equipment is carried out through the more modern 3D Software. We work hand in hand as with national as internationalen athletes from the branch in order to reach the highest possible quality and professionalism.

CUSTOMBARS® - FOR SATISFIED EMPLOYEES

Being the first German company in the market, we offer you besides standard sport parks also custom-made solutions that fit into your company needs, all this barrier-free. Our company is directed by his owner, Marc Suerbier who is dedicated to the scene "Calisthenics / Street Workout" over years and himself is very active in the area. He has a degree as mechanical engineer hence also an expert in the sector in Germany.
